

# MUHAMAD SOPIAN

Application Developer & Staff Administration

[me@sopian.id](mailto:me@sopian.id) • [+62 896 3223 0344](tel:+6289632230344) • [linkedin.com/in/chossopian](https://www.linkedin.com/in/chossopian) • Bogor, West Java, Indonesia • [sopian.id](https://sopian.id)

## PROFESSIONAL SUMMARY

Innovative Application Developer & IT Administrative Specialist with end-to-end expertise in enterprise administration, cloud infrastructure, and workflow automation. Proven track record in managing Google Workspace Admin ecosystems, building custom management applications (AppSheet), and orchestrating automated pipelines using n8n and Google Apps Script. Proficient in self-hosted DevOps environments (Docker, Dokploy, Linux VPS) and implementing AI agent frameworks (Hermes/OpenClaw) to transform complex administrative operations into efficient, intelligent digital systems.

## TECHNICAL SKILLS & COMPETENCIES

- **IT & Enterprise Administration:** FIMS (FIWA Integration Management System), Google Workspace Admin Console (User Provisioning, Role Assignment, Chromebook Licensing & Management), Administrative Workflow Digitization.
- **Workflow & Business Automation:** n8n (iPaaS Automation), AppSheet (Low-Code Development), Google Apps Script, Evolution API (WhatsApp Integration).
- **Cloud & DevOps Infrastructure:** Dokploy (PaaS), Docker Containerization, Linux VPS Management, Traefik Reverse Proxy, Server Monitoring (Uptime Kuma), Beekeeper.
- **AI & LLM Orchestration:** AI Agent Frameworks (Hermes, OpenClaw), Multi-LLM Integration (Claude, ChatGPT, DeepSeek, GLM, Kimi, MiMo), Prompt Engineering, Local LLM Deployment (Ollama), LLM Routing (9router).
- **Backend & Database Management:** MySQL, PostgreSQL, FastAPI, RESTful API Integration, Role-Based Access Control (RBAC).

## WORK EXPERIENCE

Application Developer

Sep 2025 – Present

Fitrah Islamic World Academy

- Engineered and deployed FIMS (FIWA Integration Management System) from end-to-end using low-code platforms (AppSheet) and backend systems to fulfill internal stakeholder requirements.
- Designed and implemented new system features, database logic (MySQL), and workflow enhancements to continuously adapt platforms to evolving organizational needs.
- Troubleshoot, debugged, and maintained core operational applications, resolving software bugs and database issues to ensure high uptime and system reliability.
- Automated routine administrative workflows by integrating API connections, Google Apps Script, and automated messaging tools (n8n, Evolution API).

Staff Administration / Administrative Specialist

Sep 2025 – Present

Fitrah Islamic World Academy

- Managed FIMS user access and security settings, handling user provisioning, account deactivation, and Role-Based Access Control (RBAC) to ensure secure system access across departments.
- Oversaw core academic operations, including lesson roster scheduling, student transfer processing, and end-of-term report card management and distribution.
- Administered Google Workspace Admin Console, managing user account lifecycles, role assignments, and Chromebook device policies and licensing.
- Coordinated cross-functionally with teachers and call center staff to troubleshoot operational issues, resolve administrative inquiries, and streamline communication.

## Staff Administration Logistic

Nov 2024 – Jan 2025

PT Porto Indonesia Sejahtera

- Managed logistics data operations and generated daily reporting in Odoo ERP, ensuring high data accuracy and seamless inventory tracking.
- Monitored and reconciled stock movements and inventory data, minimizing data discrepancies between physical warehouse stock and the ERP system.
- Administered and audited shipping and receiving documentation to support smooth supply chain operations and ensure compliance with fulfillment standards.

## Freelance Software Engineer & Automation Specialist

Jun 2022 – Oct 2024

Self-Employed / Remote

- Engineered custom automation bots and web scraping scripts using NodeJS and API integrations to streamline data extraction and notification systems.
- Executed technical research and protocol testing on Web3 networks, interacting with smart contracts, decentralized applications (dApps), and on-chain workflow tools.
- Analyzed financial market data and execution rules for foreign exchange (Forex) and commodities, applying strict quantitative risk management strategies.

## Base Coating Operator (Guitar Department)

Sep 2020 – May 2022

PT Samick Indonesia

- Executed base coating application processes for guitar bodies and components in strict compliance with Standard Operating Procedures (SOPs) and quality standards.
- Conducted quality control (QC) inspections on surface finishes, identifying and reporting material defects to ensure high-grade aesthetic and structural finishing.
- Maintained consistent daily production targets while adhering to strict workplace safety, environmental health, and operational guidelines.
- Collaborated with assembly line personnel and supervisors to monitor inventory usage, minimize material waste, and optimize workflow efficiency.

## Coating Operator (Grand Piano Department)

Sep 2018 – Jun 2020

PT Samick Indonesia

- Applied specialized surface coating techniques on high-value grand piano wooden components and cabinets in accordance with detailed technical specifications.
- Prepared surfaces and calibrated spray/coating equipment to achieve uniform material thickness, flawless gloss levels, and smooth surface texture.
- Executed multi-stage visual and tactile quality checks during the finishing process to detect micro-defects, surface irregularities, and color inconsistencies.
- Complied with industrial chemical handling protocols and safety guidelines, while collaborating with the manufacturing team to maintain steady assembly workflow.

## EDUCATION

### Bachelor of Computer Science (Informatics)

Sep 2018 – Aug 2022

Universitas Indraprasta PGRI

- GPA: 3.30 / 4.00

## COURSES AND CERTIFICATIONS

- [Coursera: Machine Learning by Stanford University.](#)
- [Coursera: Front-End Web UI Frameworks and Tools: Bootstrap 4 by The Hong Kong University of Science and Technology.](#)

## **ADDITIONAL INFORMATION**

### **LANGUAGES**

- Bahasa Indonesia: Native / Fluent
- English: Limited Working Proficiency (Technical & Written)

### **INTERESTS**

Emerging Technologies, AI & Agentic Systems, Self-Hosted Infrastructure, Workflow Automation, and Web3 Communities.
